Medications for Addictions Treatment E-Learning Course

Overview

The overall purpose of this course is to enhance your professional knowledge of Medications for Addictions Treatment (MAT), and build skills related to engaging and educating patients about MAT.

Successful Completion

This course offers 2.25 contact hours. To receive contact hours, participants must complete the course with a satisfactory grade of 80% or higher on all module quizzes and complete the Evaluation/Request for Credit form. CNE and certificates of completion will be available immediately upon passing the course and submitting the evaluation.

Objectives

1. Demonstrate how to educate medical professionals on the use of MAT with alcohol and opioid dependent patients, and set the necessary context for subsequent learning modules.
2. Describe the various medications that have been approved to treat alcohol and opioid dependence, including their mechanism of action, user populations, research outcomes, and extend of use.
3. Identify the workforce, organizational, and environmental/regulatory issues that facilitate or impeded the implementation of MAT.
4. Relate information to enable providers to become more skilled at outreach and engagement of specific racial and ethnic minority populations in MAT.

Conflict of Interest

In accordance with continuing education accreditation standards, speakers, planners, content reviewers, and staff have disclosed their commercial interests and financial relationships which may be perceived as a conflict of interest. The following individuals have potential conflicts of interest:
