

Working with Military Members: The Chronic Care Model E-Learning Course

Overview

In this course, comprised of two video lectures (approximately 30 minutes), learners will be presented with information on The Chronic Care Model and tips for managing chronic conditions. Chronic diseases cause 70% of deaths in the US. To change the outcomes requires a fundamental change in practice. By the end of this presentation, participants will identify the elements of the Chronic Care Model and how it can be implemented to improve health outcomes.

Successful Completion

This course offers 1.0 contact hours. To receive contact hours, participants must complete the course with a satisfactory grade of 80% or higher on the quiz and complete the Evaluation/Request for Credit form. CNE and certificates of completion will be available immediately upon passing the course and submitting the evaluation.

Objectives

- Demonstrate an understanding of the Chronic Care Model and its application to managing chronic diseases.
- Demonstrate an understanding of the PACT model used in the VA System and the relationship to the Chronic Care Model.
- Apply self-management strategies for chronic diseases.
- Demonstrate patient-centeredness at the heart of the Chronic Care Model for working with Veterans.
- Define multiple chronic conditions.
- Articulate thoughts and ideas to provide better coordinated, evidence-based care to persons with multiple chronic conditions.
