Virtual Basic IUC Skills Placement and Removal Training

Provided by the University of Missouri-Kansas City School of Nursing and Health Studies
Jointly Provided by the Clinical Training Center for Family Planning

Objectives:

- Identify reasons for use of a tenaculum during IUC placement
- Describe correct use of uterine sound during IUC placement
- Demonstrate correct hand skills for placement of the copper IUC and the levonorgestrel IUCs
- Explain the differences between the 5 IUCs currently on the market in the US
- Summarize the U.S. MEC category 3 and 4 recommendations regarding levonorgestrel and copper IUCs

Successful Completion:

This training offers up to 1.5 contact hours. To receive contact hours, participants must complete the course with a satisfactory grade of 80% or higher on the quiz and complete the online evaluation and request for credit form. CNE, CMEs and Certificates of Completion will be emailed 4 – 6 weeks after submission of the online evaluation/request for credit form.
