

Articles of Interest

Addressing Syphilis in Non-MSM Populations

Overview

The NCTCFP presents a new Continuing Education modality, “**Articles of Interest**,” featuring journal articles to keep you informed of family planning and reproductive health topics. This new on-line resource provides an easy way to obtain CE credit at your convenience! Just read the articles and complete a quiz about the content.

Successful Completion

This course offers 1.0 contact hours. To receive contact hours, participants must complete the course with a satisfactory grade of 80% or higher on the quiz and complete the Evaluation/Request for Credit form. CNE and certificates of completion will be available immediately upon passing the course and submitting the evaluation.

Objectives

- Discuss the US syphilis epidemic and rates of infection among specific populations
- Explain the increase rates with those both sexual and non-sexual high risk behaviors
- Recall the importance of collaboration with STI programs and programs that provide substance use disorder services for screening and prevention of syphilis

Conflict of Interest

In accordance with continuing education guidelines, speakers and planning committee members have disclosed financial relationships with commercial interests that may create a potential conflict of interest.
