

Intrauterine Contraception: Mechanisms of Action, Terminology, Candidates for Use and Duration of Use Virtual Coffee Break

Provided by the University of Missouri-Kansas City School of Nursing and Health Studies
and Jointly Provided by the Clinical Training Center for Family Planning

Even Description:

This virtual coffee break was created by the National Clinical Training Center for Family Planning. It is intended for Title X program clinical providers, pharmacists, nurses, and other staff who provide contraception counseling and administration. This brief learning opportunity will prepare participants to confidently discuss the types of intrauterine contraception (IUC) and their mechanisms of action, identify criteria for patient use, and describe the efficacy and duration of use for each.

Objectives:

- Define the methods of intrauterine contraception (IUC)
- Discuss the mechanisms of action for each type of IUC
- Describe the nomenclature for intrauterine devices, including brand names
- Identify FDA-approved duration of use for each type of IUC
- List the criteria for candidate selection

Successful Completion:

This webinar offers 0.25 contact hours. To receive contact hours, participants must complete the course with a satisfactory grade of 80% or higher on the quiz and complete the Evaluation/Request for Credit form. CNE and certificates of completion will be emailed within three to four weeks after submitting the evaluation.
