

Pain and bleeding in Early Pregnancy Virtual Coffee Break

Provided by the University of Missouri-Kansas City School of Nursing and Health Studies
and Jointly Provided by the Clinical Training Center for Family Planning

Even Description:

This virtual coffee break was created by the National Clinical Training Center for Family Planning to describe the diagnosis and management of pain and bleeding in early pregnancy. It is intended for Title X program clinical providers (MD/NP/PA/CNM), nurses, and other staff who may assess and triage clients with early pregnancy symptoms.

Objectives:

- Discuss the evaluation of abdominal/pelvic pain and vaginal bleeding in early pregnancy.
- Identify emergent and non-emergent pathologies for differential diagnosis of pain and bleeding in early pregnancy.
- Discuss criteria for instability and referral of client to emergency department.
- Describe essential actions for the expectant management of actual or threatened early pregnancy loss.

Successful Completion:

This e-learning course offers 0.25 contact hours. To receive contact hours, participants must complete the course with a satisfactory grade of 80% or higher on the quiz and complete the Evaluation/Request for Credit form. CNE and certificates of completion will be emailed within three to four weeks after submitting the evaluation.
