

## **Management of Nonviable Early Pregnancy Virtual Coffee Break**

Provided by the University of Missouri-Kansas City School of Nursing and Health Studies  
and Jointly Provided by the Clinical Training Center for Family Planning

### **Even Description:**

This virtual coffee break was created by the Clinical Training Center for Sexual and Reproductive Health to help providers diagnose, counsel, and treat clients with nonviable intrauterine pregnancy. It is intended for Title X program clinical providers (MD/NP/PA/CNM), nurses, and other staff who may assess and triage clients with early pregnancy symptoms.

### **Objectives:**

- Describe the process of determining viability in early pregnancy.
- Define common terms associated with early pregnancy loss (EPL).
- Discuss considerations for counseling clients with non-viable pregnancies.
- Identify three EPL management options and describe contraindications, risks, benefits, and patient counseling considerations for each.

### **Successful Completion:**

This e-learning course offers 0.25 contact hours. To receive contact hours, participants must complete the course with a satisfactory grade of 80% or higher on the quiz and complete the Evaluation/Request for Credit form. CNE and certificates of completion will be emailed within three to four weeks after submitting the evaluation.

### **Commercial Support/ Sponsorship:**

There is no commercial support for this e-learning course.

### **Disclaimer:**
