

Intrauterine Contraception: Evaluation and Management of Pain and Bleeding Virtual Coffee Break

Provided by the University of Missouri-Kansas City School of Nursing and Health Studies
and Jointly Provided by the Clinical Training Center for Sexual Reproductive Health

Even Description:

This virtual coffee break was created by the Clinical Training Center for Sexual and Reproductive Health to review best practices for the evaluation and management of pain and bleeding during Intrauterine Contraception (IUC) use.

Objectives:

- Describe potential bleeding irregularities and variations during IUC use.
- Describe best practices for the treatment of bleeding during IUC use.
- Identify effective approaches to ease client pain during and after IUC placement.
- Discuss anticipatory counseling for clients to enhance understanding of IUC use.

Successful Completion:

This e-learning course offers 0.25 contact hours. To receive contact hours, participants must complete the course with a satisfactory grade of 80% or higher on the quiz and complete the Evaluation/Request for Credit form. CNE and certificates of completion will be emailed within three to four weeks after submitting the evaluation.

Commercial Support/ Sponsorship:

There is no commercial support for this e-learning course.

Funding Acknowledgement
