Trauma Informed Care in Sexual and Reproductive Health

Provided by the University of Missouri-Kansas City School of Nursing and Health Studies
Jointly Provided by the Right Time Initiative

Description:

This virtual training will offer learners tools and strategies to support and deliver trauma-informed services. A universal approach to understanding and addressing current and past trauma is important to build trust with patients, avoid re-traumatization, and enhance reproductive well-being. This training includes videos, interactive exercises, knowledge checks, downloadable job aids, and links to other helpful tools and resources.

Objectives:

After this course, participants will be able to:

- Discuss the prevalence and effects of trauma on clients and the health care team.
- Explain the trauma-informed model of care and how to implement it across all levels of practice.
- Demonstrate individual interaction strategies for avoiding stigmatization and re-traumatization.
- Implement trauma-informed clinical practices.
- Recommend trauma-informed practices, policies, and physical environment considerations.

Successful Completion:

To receive contact hours, participants must submit a completed evaluation and request for credit form and complete the course with a satisfactory grade of 80% or higher on the quiz. CNE Certificates and non-CE Certificates of Completion are available immediately for electronic download upon satisfactory completion of the course.

Potential Relevant Financial Relationships:

In accordance with continuing education guidelines, the contributing authors and planning committee members have disclosed potential relevant financial relationships with ineligible companies.

Content Expert:

Denise Raybon, MPH, has no relevant financial relationships with ineligible companies to disclose.

Reviewers:

Ashley Kuykendall, MSW, MPH, CHES and Denise Raybon, MPH, have no relevant financial relationships with ineligible companies to disclose.
