Syphilis Screening and Prevention – Virtual Coffee Break

Provided by the University of Missouri-Kansas City School of Nursing and Health Studies
Jointly Provided by the Clinical Training Center for Sexual Reproductive Health

Description:

This brief learning session offers healthcare providers foundational knowledge and actionable strategies for syphilis screening and prevention. It is intended for Title X program clinical providers (MD/NP/PA/CNM), nurses, and other staff who may screen clients for syphilis.

Objectives:

- Distinguish between geographic-based and risk-based screening criteria and apply CDC recommendations to clinical practice.
- Implement normalizing and opt-out communication strategies to improve syphilis screening uptake among patients.
- Counsel patients on syphilis prevention, including abstinence, mutual monogamy, condom use, and the application of Doxycycline Post-Exposure Prophylaxis (Doxy PEP).
- Understand the critical importance of syphilis screening in pregnancy and discuss approaches to prevent congenital syphilis through early detection and treatment.

Successful Completion:

To receive contact hours, participants must complete the activity as well as complete the online evaluation and request for credit form. CNE, CME and Certificates of Completion will be emailed 4 – 6 weeks after submission of the online evaluation/request for credit form.
